Business Eye Sustainability Awards Green Building of the Year 2024

Building Belfast's Future

Building Belfast's Future

Sustainable city workspace

Olympic House Belfast is the future of workspace — 146,746 sq. ft. of Grade A, BREEAM Excellent office accommodation located in central Belfast's Titanic Quarter.

Designed to enhance the health and wellbeing of your employees – a place where they will love to work.

Green Building of the Year 2024

The new Business Eye Sustainability Green Building Award category sets out to recognise Northern Ireland's class-leading development/construction projects with sustainability at their core. Open to individual buildings and larger developments, the award spotlights best practice in design, construction and fit out of developments/buildings.

Greener Working

Setting the benchmark for sustainability

Excellent public transport connections – Glider and Rail Halt

Sustainable Brown Field Development

Provision of showers and changing facilities

Touchless Access & Destination Control System

Full Building Management System (BMS) with Tenant Access for Independent Control of Office Heating and Cooling Systems

Rainwater Harvesting and Recycling

Photovoltaic Panels (PV)

Extensive Public Realm steeped in Belfast's rich maritime heritage assets

Located on national cycleway, adjacent to Belfast Bikes hire stations, secure enclosed cycle parking

Daylight Dimming and PIR Control, Energy Efficient Lighting

Healthier Workforce

Designed to enhance the wellness of your team

A happy and healthier workforce increases productivity and employee retention. Olympic House and Titanic Quarter's extensive public realm sets a new benchmark for Belfast in creating a healthier working environment.

A happier and healthier workforce increases productivity and employee retention

Excellent public transport connections – Glider and Rail Halt

Located on national cycleway, adjacent to Belfast Bikes hire stations and secure enclosed cycle parking

Extensive public realm steeped in Belfast's rich maritime assets

Provision of showers and changing facilities

Sustainability

Olympic House Belfast is BREEAM Excellent

Designed in line with the UK Governments 'Greener Buildings' policy

Green features

Rainwater harvesting and recycling captures, filters, stores and re-uses rainwater within the building – an excellent method of ecological and sustainable rainwater management

Photovoltaic panels (PV) contributing to net carbon zero ambition

All electricity use in Titanic Quarter comes from renewable sources

Full Building Management System with tenant access for independent control of office heating and cooling systems

Contactless access from entrance to desk

Daylight dimming, PIR control and energy efficient light fittings

Pedestrian routes, cycleway, Belfast Bike Hire stations, Glider and rail halt on the doorstep

Titanic Quarter

The heart of Belfast's Innovation District

Titanic Quarter is the heart of Belfast's Innovation District and home to over 100 national and international businesses including Citi, Amazon, Microsoft, IBM, SAP, Belfast Met and Queen's University.

Titanic Quarter is a regeneration development that goes beyond functionality; a place that enhances the wellbeing of the people who live, work, visit and stay here, and a sustainable and safe environment for future generations.

Over £618 million has already been invested.

Some 20,000 use Titanic Quarter daily, which is now attracting over 3.5 million visitors every year. It is home to major TV and film productions, cutting edge R&D, the world's largest Titanic visitor attraction and one of Belfast's most desirable residential waterfront developments.

Titanic Quarter has already contributed £757 million GVA and hasn't even reached the half-way point of development

£146 million of social value has been generated through work, health and wellbeing, apprenticeships and volunteering.

There are ambitious plans for Titanic Quarter with capital investment reaching £2billion – by 2035 the residential population will increase from 1,000 to 8,900 and visitor numbers to over 5.6million per year through a further 2,500 homes for all, and over 1.2 million sq. ft. of new employment, leisure and retail space.

Titanic Quarter has gone from a master plan to reality as a thriving and bustling destination.

20,000 people live, work, visit and stay in Titanic Quarter daily

Over 3.5 million people visit Titanic Quarter each year

Titanic Studios, where Emmy-Award winning Game of Thrones was filmed

£618 million of investment completed to date

1.5 million sq. ft. completed for mix of office, leisure & residential. 3 million sq. ft. with planning approval

Europe's fastest direct fibre-optic links to North America

Titanic Belfast - has now welcomed 6.5 million visitors from over 145 countries since opening in 2012 and was named 'Worlds Leading Tourist Attraction' in 2016

Entertainment facilities include SSE Arena, Odyssey Place and Vertigo Indoor Skydiving, Inflatapark and Ninja Warrior Course

Over 100 national and international organisations including Citi, Microsoft, IBM, SAP, HBO, Amazon, Belfast Metropolitan College, Ulster University and Queen's University Belfast are already established in Titanic Quarter

Titanic Quarter is in the heart of Belfast city, one of the Top 20 Sustainable Destinations in the world

Titanic Quarter is in the heart of Belfast city which is recognised by the Global Destination Sustainability Index as a city committed to sustainable development and growth and is ranked as one of the top 20 sustainable destinations in the world. Belfast's resilience strategy, the city's first climate plan, outlines 30 transformational programmes to transition Belfast to an inclusive, zero-emissions, climate-resilient economy within a generation.

Belfast is the capital and the economic and cultural heart of Northern Ireland. With first class universities and world leading financial services, creative industries and technology centres, Belfast has one of the lowest occupational and operational costs in the UK with access to best in class ICT infrastructures.

NI has more Foreign Direct Investment jobs than any other region of the UK and over 70% of new investors choose to reinvest in the region – and Belfast was awarded the best city in the UK to start a new business according to Hitachi Capital Invoice Finance in 2021.

Over 1,100 international companies operate in Northern Ireland

Top four accounting firms have substantial presence in Belfast

Highest percentage of qualified professionals in the UK

Location – Belfast

Over 20,000 graduates annually from Queen's University and Ulster University

World's top destination for financial technology investment projects

NI 1.8m population, one of the youngest and fastest growing in Europe

Belfast is one of the FT FDI Intelligence's Top 10 Digital Economies of the Future

Lowest cost of living for UK city in Mercer Survey 2019

Operating costs lower than the rest of the UK

Travel time from suburbs to Belfast City Centre is 20 minutes

Belfast has two airports providing access to all major UK cities and many international cities. Dublin airport, with its access to worldwide destinations, is less than two hours away

World's most business-friendly city of its size

100 miles north of Dublin, 70 miles south east of Derry/Londonderry

Direct connection to the M1 motorway which provides access to the south and west, and the M2 motorway which provides access to the north

Direct rail connection to Dublin in less than 2 hours

Location & Access

Titanic Quarter is at the forefront of sustainable transport innovation

£3 million investment has been made over the past year on enhancing pedestrian and cycle routes within Titanic Quarter, improving connectivity to Belfast city centre and beyond.

By offering alternative transport options, Titanic Quarter aims to reduce vehicle use by a minimum of 35% by 2035.

Car-sharing and car clubs will be soon be introduced, along with a number of further measures, to ensure that the reliance on car travel is significantly reduced.

Belfast City Airport is within 10 minutes drive and Belfast International Airport is under 30 minutes by road, making London within one hour and Dublin accessible within two hours by train

Fly

George Best Belfast City Airport is within 5 minutes drive. Belfast International Airport is within 30 mins.

Public Transport

Serviced by Belfast's rapid transit system, the Glider. Ready access to provincial bus services. Dedicated Titanic Quarter train halt situated 14 minutes walk from Olympic House.

Boat

Multiple sailings to Scotland, England and Isle of Man from Belfast Harbour.

Cycle

4 Belfast Bikes docking stations within Titanic Quarter and Belfast Harbour giving easy access to Belfast City Centre. Part of UK National Cycle Network.

Car

Direct access to main trunk roads & motorway network.

Foot

15 minute walk to Belfast City Hall.

Connectivity

Titanic Quarter has developed one of the UK and Europe's most advanced, secure and connected telecoms hubs

Named by Massachusetts Institute of Technology (MIT) as a '21st Century City', Titanic Quarter has developed one of the UK and Europe's most advanced, secure and connected telecoms hubs. Titanic Quarter is one of Europe's first to deliver an Open Access Carrier Neutral Network with fibre directed to every occupant. The Network is future proofed, it is supplied by multiple (two) exchanges which creates a resilient geographically separated ring which enhances service concurrency and encourages service innovation for the benefit of users.

“
Belfast has the best fibre coverage among major UK cities with 97% superfast broadband coverage.

UK Department of
Culture Media and Sport
